APPENDIX
Suffolk County Sanitary Code Article 7-Water Pollution Control
Section 701. Declaration of Policy
The designated best use of all groundwaters of Suffolk County is for publi and private water supply, and of most surface waters for food productior bathing and recreation. The federal government has officially designated th aquifer below Suffolk County as a sole-source for water supply. Therefore, it i hereby declared to be the policy of the County of Suffolk to maintain its wate resources as near to their natural condition of purity as reasonably possible fo the safeguarding of the public health and, to that end, to require the use of a] available practical methods of preventing and controlling water pollution fror sewage, industrial and other wastes, toxic or hazardous materials, am stormwater runoff.
Section 702. Statement of Purpose
It is the intent and purpose of this article to safeguard all the water resource of the County of Suffolk, especially in deep recharge areas and water suppl; sensitive areas, from discharges of sewage, industrial and other wastes, toxic o hazardous materials and stormwater runoff by preventing and controlling sue] sources in existence when this article is enacted and also by preventing furthe pollution from new sources under a program which is consistent with th above-stated Declaration of Policy.
Section 703. Definitions
Whenever used in this article, unless otherwise expressly stated, or unless th< context or subject matter requires a different meaning, the following term shall have the respective meanings set forth or indicated.
